

**CUMBERLAND
COUNTY**
NORTH CAROLINA

**DEPARTMENT OF PUBLIC HEALTH
BOARD OF HEALTH MEETING**

AGENDA

February 18, 2020 at 6:00 PM in Third Floor Boardroom

Welcome & Introductions

Dr. Connette McMahon, Chair

Moment of Silence

Dr. Connette McMahon

Item 1. Agenda (Pg. 1-2)

Item 2. Action Items:

A. Approval of Agenda

Dr. Connette McMahon

B. Approval of Meeting Minutes: January 21, 2020 (Pg. 3-7)

Dr. Connette McMahon

C. Appointment of Optometrist Representative

Dr. Connette McMahon

a. Hakkam Alsaidi (Pg. 8-9)

b. Joseph Ballard (Pg. 10)

c. Jessica Elmore (Pg. 11-13)

Item 3. Informational/Discussion Items:

A. Public Comment

Dr. Connette McMahon

B. Financial Reports (Pg. 14-20)

Mrs. Candi York

C. Budget Process Update

Mrs. Candi York

D. Summary of Priorities from Board of Health Retreat

Dr. Connette McMahon/Dr. Jennifer Green

E. Board Communication

Dr. Connette McMahon

F. Gen-X Proclamation

Dr. Connette McMahon

G. Clinic Reports (Pg.21-29)

Dr. Jennifer Green

H. External Reports and Audits

Dr. Jennifer Green

a. NC Annual School Health Services Report 2018-2019 (Pg. 30-32)

Dr. Jennifer Green

I. Performance Evaluation of Public Health Director

Dr. Jennifer Green

J. Friends of the Health Department

Rev. Dorothy McNeil

K. Director's Report:

Dr. Jennifer Green

a. COVID-19 (2019 Novel Coronavirus) Update

b. Deputy Director Search Update

c. Upcoming Events:

i. Get a Gold Smile

1. Tuesday, Feb. 18 from 8 a.m. to 4 p.m.

2. Tuesday, Feb. 25 from 8 a.m. to 5 p.m.

3. Thursday, Feb. 27 from 8 a.m. to 5 p.m.

ii. NC Pre-K Event by Partnership for Children – February 29th, 9:00am-3pm at Cumberland County Health Department

iii. Build a Better Murchison – March 7, 12pm-5pm

iv. Eastern NCPHA Nags Head, NC, April 29- May 1

1. Eastern NCPHA – Registration deadline is April 17, 2020

- v. NCPHA Spring Conference Raleigh, NC, May 19
 - 1. NCPHA Spring Conference – Registration not yet available
- vi. NACCHO Denver, CO, July 7-9
 - 1. Registration deadline is May 15, 2020 for the early bird rate
- vii. NALBOH Grand Rapids, MI, Aug 18-20
 - 1. NALBOH – Registration is not yet available. Hotel registration deadline is July 28, 2020.

L. Membership Roster/Attendance Roster (Pg. 33)
M. Board Member Comments

Dr. Connette McMahon
Board Members

ADJOURN

NEXT REGULAR BOARD MEETING: March 17, 2020 (Tuesday) - 6:00 PM

CUMBERLAND COUNTY BOARD OF HEALTH
JANUARY 21, 2020 – 6:00p.m.
1235 RAMSEY STREET, THIRD FLOOR BOARD ROOM
REGULAR MEETING
MINUTES

MEMBERS PRESENT: Dr. Connette McMahon, Chair

MOTION: Dr. Fleishman moved to approve the Fees Schedule, including quarterly adjustment that may need to be made to the 340B Fees.
SECOND: Mr. John Larch III
VOTE: Unanimous (6-0)

G. Bad Debt Write Off

MOTION: Dr. Fleishman moved to approve the Bad Debt Write Off
SECOND: Mr. John Larch III
VOTE: Unanimous (6-0)

INFORMATIONAL/DISCUSSION ITEMS

A. Public Comment

Dr. McMahon opened the floor for public comments at 6:03 p.m. There being no public comments registered, Dr. McMahon closed the floor for public comment at 6:03 p.m.

B. Financial Reports

Mrs. Candice York presented her financial reports. There are 11 proposed fee schedule changes that will be affected for fiscal year 2021. Clinical Services were listed that need to be adjusted to the Medicaid reimbursement rate. The 340 B rates need to be adjusted quarterly to the acquisition rate. Delinquent accounts to be turned over to collections were \$26,895.68, and accounts were old or older than 90 days as of 9/30/19. Revenue earned and expenses for the month closing 12/31/19 was \$43,697. Medicaid has earned 50.01% and we are on target for what should have been earned by this time. The fiscal year has exceeded 56.7% on the fees. Rabies clinic fees were low as we only hold clinic one Saturday and then again in Spring.

Dr. Fleishman arrived at 6:10pm.

C. Introduction of Triple P Staff

Mrs. Ashley Curtice introduced Joshua Harrell and Tameria Ferguson as the new Triple P Staff. Both staff provided a brief summary of their role with Triple P. Triple P is a parenting intervention with the main goals of increasing the knowledge, skills, and confidence of parents and reducing the prevalence of mental health, emotional, and behavioral problems in children and adolescents.

Mr. John Larch III asked how families get enrolled or is it primarily through the justice system or school system. Mrs. Curtice explained that parents can take classes online for free as well as regional group sessions and discussion groups and seminars.

D. Clinic Reports

Dr. Jennifer Green went over clinic reports showing how many patients were scheduled, seen, no-show's and statistics of services rendered. Dr. McMahon asked about the high cancellation and no-show rate. Dr. Green explained that this is something that has been talked about in great length during times of her shadowing different departments. Dr. Green said that with our new EHR, patients will be able to text right back after they get a reminder text for their appointment. Certain clinics give baby bucks for incentives to patients to spend in the baby store for coming to their appointments. Departments are strategizing to find creative ways to get patients in the door and to keep them coming back.

E. Oral Health Month Activities

Mrs. Curtice spoke about the Get a Gold Smile event that bring awareness to communities for oral health. Providers will be here to screen children and pregnant mothers in the third floor Auditorium. There will be coloring books and another tabletop information. This event is in coordination with Fayetteville Technical Community College (FTCC). This event is to raise awareness; however, they can go over to FTCC and get a dental cleaning for \$5.00. Advertising will consist of posters in lobby.

F. Tobacco Updates

Mrs. Curtice announced the first new federal tobacco regulation was raising the age for all tobacco products to age 21 which happened right before Christmas. North Carolina (NC) is working on public education for retail merchants and signage, this way our stores are consistent with the federal law currently in NC. The second federal regulation was the flavors, so they did ban all flavors except for regular tobacco flavor and menthol. NC is going through a process to figure out if it is safe to be on the market or not, and this should happen in the next year or two.

G. Gen X Exposure Study

Dr. Jane Hoppins presented a Power Point on her study where she had been testing water sampling since 2017 in Wilmington. Dr. Hoppins also brought with her, Dr. Nadine Cutler, an environmental engineer that has been doing research with her and was there to answer questions. Dr. Hoppins has extended her research to Fayetteville within 6 miles of the chemical plant. Dr. Hoppins said that the residents in Fayetteville were among the best research subjects she had ever met. They gave out 99 wristbands and got 91 back. Continued testing has been done in families with at least 5 in the home. Dr. Hoppins is working on getting more funding and of course they have been delayed by Hurricane Florence and Matthew or they would have been in this area sooner.

Dr. Fleishman left at 7:26pm.

H. Friends of the Health Department:

Rev. Dorothy McNeil introduced herself and explained that the reason Friends of Health Department was formed was so that the BOH could help increase public awareness of what goes on in our public health department. Although membership recruitment is not yet complete, the team is working hard to get a team that mirrors what our community is made up of. Rev McNeil spoke briefly about reducing food insecurity in our children and plans to have food available to those parents that are in dire need.

I. Director's Report:

A. Board of Health Retreat Update – Dr. Green announced that it would be held on February 7th and will be held at the Bordeaux Library from 12 pm-4pm. This meeting goal is for the board to help us set priorities for the health department.

B. Deputy Director Search Update – Dr. Green added that the position should be posted tomorrow, as there were some revisions to include salary and some of the job description and it would stay open for about 2 weeks.

C. Upcoming Events:

- i. NCPHA Public Health Leadership Conference, Raleigh, NC, January 23-24,2020
- ii. Eastern NCPHA Nags Head, NC, April 29- May 1
- iii. NCPHA Spring Conference Raleigh, NC, May 19
- iv. NACCO Denver, CO, July 7-9
- v. NALBOH Grand Rapids, MI, Aug 18-20

J. Membership Roster/Attendance Roster:

Dr. McMahon reviewed the membership roster and the attendance report for 2019.

K. Board Comments:

Mr. John Larch III asked about any confirmed cases of the Corona Virus. Dr. Green said she had not heard of any but would provide an update at the next meeting.

Dr. McMahon asked that CV's be provided for the Optometrist at next meeting for review.

As a reminder, the next regular meeting is Tuesday, February 18, 2020 at 6 p.m.

ADJOURNMENT

MOTION: Ms. Sonja Council moved to adjourn.

SECOND: Dr. Ojo

VOTE: Unanimous (7-0)

The meeting was adjourned at 7:51 p.m.

Dr. Jennifer Green, Health Director

Optometrist serving the local community which I grew up in. In addition to providing primary care and contact lens fitting, I treat Dry Eye Syndrome, Glaucoma and manage Macular Degeneration along with ocular manifestations of systemic medical conditions such as Diabetes, Hypertension, inflammatory conditions, etc.

Education:

Cape Fear High School	Fayetteville, NC
East Carolina University	Greenville, NC
Bachelor of Science Degree in Biology with Cum Lauda	
Nova Southeastern University College of Optometry	Fort Lauderdale, FL
Doctorate of Optometry	

Career:

Oasis Eye Care August 2017
Risk Optometric Associates 2017-Present

Volunteer Experience

- 2013-2017**

 - Project Downtown South Florida- Over 30 hours
 - Provide and distribute food to the homeless on Saturday mornings
- 2011**

 - Unite For Sight- One Week in India
 - Fundraised over \$2,000 and collected 535 glasses for the AB Eye Institute in India
 - Volunteered in the hospital and charity clinics
- 2010**

 - Biology Research and publication- 31 Hours
 - Study of correlation between insect population and species of grass within streams
- 2008**

 - Care Clinic Volunteer-Fayetteville, NC

Awards/Achievements

- Up and Coming Optometrist of the Year-2019
- NC License in Optometry-August 2017
- Alcon 2017 Contact Lens award
- Graduated with Honors from East Carolina University
- Dean's List-Fall 2009/Fall 2010/Spring 2011
- Chancellor's List-Fall 2008/Spring 2009
- ECU-Honors Program
- 2009 Study Abroad to China
- Phi Eta Sigma-Freshman National Honor Society
- State finalist in Extemporaneous Speaking for Health Occupations students of America (2007)
- South East Regional Treasurer for Health Occupations Students of America (2007)

Organizations

- One of the founding fathers and current VP of AASNC (2018-present)
- American Optometric Association-member-(2017-present)
- North Carolina Optometric Society-member-(2018-present)
- SGA President of NSU College of Optometry (2013)
- Anatomy Lab Tutor for NSU College of Optometry (2013)
 - Private sessions and large mock style sessions with over 90% attendance
- Nova Optometric Practice Management Association-member (2013-2016)
- ECU Pre-Optometry-Organization VP and one of the founding fathers (2011-2012)
- Honors Ambassador (2011)
- Diversity Education Team-member Spring 2010
- Resident Advisor-Spring 2010 (Campus living)
- Supplemental Instruction (SI) Leader (2009)
- Entrepreneurship Leadership Program-member (2008)
 - Our team brought the 2006 Nobel Peace Prize winner to the college
 - Founded the Sustainable Committee for the college

JOSEPH M. BALLARD, OD

10512 Giles Road / Linden, North Carolina 910-689-6581 jballardod@gmail.com

InfantSEE Provider- 2013- Present

- Provide no cost eye examinations for children under age 1 as a public health initiative to educate patients regarding the importance of vision in development and learning and to screen for amblyopia, ametropia, strabismus, glaucoma and retinoblastoma.

Interests

In my free time, I enjoy spending time with my husband and my 16 month old daughter. I love to travel and in February 2020 will travel to my 27th country. I am an avid reader, although these days most of my reading is done via Audible on my commutes to and from work. I enjoy working as an eyecare provider in my family's private practice where I have worked since I was 13 years old. My favorite thing about my profession is meeting new people and helping them see better! I love Fayetteville and want to do whatever I can to help our community prosper.

Good Afternoon Dr. Connelly and Dr. Green,

North Carolina Public Schools benefit from a rich tradition in understanding the health needs of our students and the health services in schools that foster readiness to learn. This tradition includes a report system that extends back to 1996 when the North Carolina School Health Services Report surveys began through the School Health Unit at the Division of Public Health. While the survey has changed over the years, the primary purpose in supporting the efforts of the local district has remained.

This email is sent to thank you, and the district school nurses, for the continued diligence in the work that they do and for participation in the annual report process. Please find below a few important data points from your district report that are also shared as the state aggregate in the attached recently released 2018-19 North Carolina School Health Services Report Brochure. We hope that you find having this information to be beneficial in support of your district school health program and encourage you to discuss local findings with your school nursing staff. Questions may be directed to your Regional School Health Nurse Consultant.

Cumberland County Schools 2018-2019

1. School Nurse to Students Ratio: 1:1653.96
2. Percent of Your Total District Population Receiving Services Related to a Chronic Health Condition: 9.39%
3. Percent of Your Students Returned to Class When Seeing a School Nurse: 88.88%
4. Mental Health

Number of Students Seen by School Nurse Related to Mental Health Issues	
Depression	86
Unspecified Mental Health Related	145
Suicide Ideation	16

5. Number of K-12 Students with Goal Improvement (condition/grades/attendance) After Receiving Directed Nursing Services Over Time (School Nurse Case Management)

Condition	Average % Improved Student Specific Outcomes
Asthma	77%
Diabetes	99%
Mental/Behavioral Health	86%
Seizure Disorder	91%
Severe Allergy	78%
Weight Management	N/A

Opioid Epidemic

School Nurses assess, counsel and refer students related to drug abuse issues, including opioids. There were 2,261 students reported as engaged with the school nurse related to known drug abuse with 324 of those student incidents listed as "requiring EMS response or immediate care by a physician, and/or loss of ½ or more days of school." During the 2018-2019 school year 48 substance abuse related presentations were given, and 4,732 individual counseling sessions were provided related to substance abuse. When present, school nurses can respond to emergent symptoms indicative of possible drug influence or overdose. Opioid overdose on school grounds occurs rarely, with five incidents of Naloxone use for suspected overdose reported this school year, all of which were administered by the School Resource Officer. Sixty-one school districts reported having Naloxone available on school grounds through the School Resource Officer and eight through a district wide program supported with local policy and procedure.

Automatic External Defibrillators (AED)

AEDs are used for an immediate response to an emergency when a student or adult appears to have no heartbeat and time is critical for survival. Ninety-eight percent of public-school districts report the presence of an AED on campus. During this school year 15 instances of AED use were reported with the following statistics:

Victim	Number	Survival
Student	6	6
School Staff Person	6	4
Visitor	3	2

Case Management Outcomes

School nurse case management of selected students with complex health needs involves use of a plan of care that includes specific interventions with achievable goals, measurable outcomes and regular evaluations. Students may have one or more planned outcomes based on identified needs. School nurses may case manage students with a variety of diagnoses. Not all chronic condition diagnosed students need case management services. During this year, 6,553 individual students received case management services at school.

Condition	Average % Improved Student Specific Outcomes
Asthma	90%
Diabetes	84%
Mental/Behavioral Health	77%
Seizure Disorder	83%
Severe Allergy	90%
Weight Management	72%

Summary

School nursing services are one component of a local School Health Program. By working with multiple partners in health and education, including the NC Division of Public Health, NC Division of Medical Assistance, NC Department of Public Instruction, NC Pediatric Society, NC Academy of Family Physicians, NC Dental Society, Prevent Blindness NC, NC School and Community Health Alliance, local health departments, and more, school nurses are working to help students achieve at levels they might not otherwise reach. In many school health areas North Carolina can serve as a model for school health programs. In others, services are limited as a result of relatively slow growth in the number of school nurse positions in relation to student population growth and complexity of health care needs. Working towards an increase in the number of school nurses in North Carolina could positively impact overall student health and well-being, resulting in improved student attendance and successful academic outcomes.

This data represents key information shared by NC School Nurses via the Annual School Health Report Surveys. The information is based on students known to school nurses who received health related services in NC public schools. It is not intended as surveillance data. Except where indicated the data does not include students in NC public charter schools. Additional data is collected and is available upon request.

NORTH CAROLINA
Healthy Schools

The North Carolina Annual School Health Services Report Survey began with the 1996/97 school year and has enjoyed 100% participation from all public-school districts since its inception. The survey purpose has remained the same as shared in 1996:

- To describe current school health services which demonstrate the scope and complexity of health needs in the school environment.
- To identify school health service needs in local communities and regions, and state trends.
- To clarify the school nurse role as the professional health services coordinator and provider within the school health program.
- To provide relevant data to assist local and state school health program managers and policy makers.

School Nurse Profile

School Nurse Staffing and Nurse-to-Students Ratios

School-Nurse Educational Preparation

School nurses are Registered Nurses (RN) with varied educational preparation. In addition to being a RN, national certification in school nursing is the standard by which North Carolina school nurses are assured to have the advanced knowledge and skills required in this independent specialty practice.

A baccalaureate is the minimum degree required for certification eligibility. At the close of the 2018-2019 school year 56% of the total number of school nurses were nationally certified. NC school nurse degree status is indicated in the following graph.

NC Public Charter Schools that Employ a School Nurse

While NC LEA schools are required to provide the services of an RN School Nurse to assess and plan for the health needs of students, public charter schools are not. During the 2018-2019 year 24% of public charter schools reported employing a school nurse, full- or part-time.

Common School Nurse Activities:

North Carolina School Nurses are assigned a varying case load dependent upon school district resources, and serve from one to five schools per nurse. Common school nurse activities include:

- Preventing and responding to communicable disease outbreaks
- Developing and implementing plans for emergency health related assistance
- Planning and providing specialized clinical services and related health instruction
- Medication and health care procedure oversight
- Assessment, referral, and assuring care for identified health needs
- Assuring that mandated health related activities are completed
- Provision of health education and health counseling
- Helping to assure a safe and healthy school environment

NC Students

Chronic Conditions

School nurses assess needs, complete health care plans, and provide instruction to meet the health needs of students with chronic conditions.

2018-2019 Most Common Chronic Conditions	
Asthma	105,326
ADD/ADHD	61,954
Severe Allergies	36,600
Migraine Headaches	11,460
Nonspecific Emotional/Behavioral/Psychiatric	11,276

17%
Percent of student population receiving school nurse services related to chronic condition

Procedures

School nurses completed or supervised completion of 12,723 individual student health care procedures that were needed many times over the course of the school year.

Students and Suicide	Elementary School	Middle School	High School
Suicide attempt	67	301	546
Death from suicide	1	5	22
Suicide occurred at school	0	0	1

Selected Services Provided

School Nurse/Student Encounters and Return to Class

A student with a health concern who sees a school nurse is more likely to remain in school. During the 2018-19 school year North Carolina school nurses reported 2,309,119 student encounters. Of those, 90% of students seen by the school nurse were returned to class.

Medication Delivery and Oversight

School nurses provide oversight for medication administration in schools through training, administration, auditing for medication variances and assuring compliance with requirements.

2018-2019 Student Medications	
Number of students on long-term medications (more than 3 weeks)	28,725
Number of students on short-term medications (less than 3 weeks)	4,604
Number of students on PRN (non-emergency) medications	29,257
Number of students on emergency medications (included orders for epinephrine auto-injectors)	63,023

Counseling

School nurses provide health counseling which is defined as any encounter with a student where direct service, instruction and advice for health promotion, health improvement and health maintenance were discussed.

Mental Health Issue Counseling	
Total Number of Counseling Sessions	461,322
Other Mental Health Issues	13,482
Depression	5,861
Suicide Ideation	2,283
